

# Regional Center Referral Guide

For children over three and adults, referrals for intake can be made by parents, legal guardians or conservators. People can refer themselves to the Regional Center if they are 18 years or older. Professionals and concerned persons may make a referral, however, permission of the individual, parent or legal guardian is necessary. Legally ordered evaluations may come from the courts or Department of Children and Family Services. Early Start referrals can be made by anyone, but Regional Centers cannot render an assessment without express permission from a parent or legal guardian.
